

A REAL CONTEST

With a nice prize open to everybody.

- FIRST** We will give away on December 24th a new and interesting game board to every boy or girl, under twenty-one years old, who has built up, by December 1st, checking or savings account amounting to \$25.00.
- SECOND** Every Mother and Dad whose checking account shows an average monthly balance of \$100.00 or more, for August, September, October and November may have one of these games to use or give away.

COME ON! LET'S GO! and see how many can win.

The Farmers' National Bank

Appomattox,

Virginia.

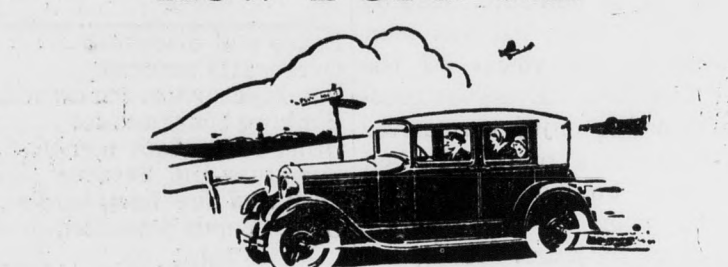

That's the usual situation when you go to the city to shop but not when you come to Lynchburg! There is free parking space for your car in a modern steam-heated garage—the Lynchburg Garage. And it is yours to use without charge from 9 A. M. to 5 P. M.—with no strings attached.

Rest rooms, parcel check rooms—all the conveniences of modern garage services are placed at your disposal free from obligation on your part.

You'll find it a pleasure to come to Lynchburg to shop.

Retail Merchants Association
Lynchburg, Va.

To the 5000 who daily become owners of the new Ford car

The service obligation of the Ford Motor Company and its dealer organization is new growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

Wherever you live, you will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been trained and equipped to do his job promptly, thoroughly and economically.

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

It is further stated by the former Governor that upon Mr. Hoover's return from Europe he expressed disappointment at the Committee's action and took the matter up with President Wilson, who set aside the Committee's recommendation and fixed the lower price suggested by Mr. Hoover.

The Stuart letter charges that the Republican spokesmen have sought to confuse the voters and to do this by entering into the price fixed for the 1919 crop, which was held down in accordance with the ideas of Mr. Hoover and proclaimed by President Wilson on September 2, 1919, was regarded as unfair by the wheat growers, who registered their protests at the Congressional election of that year by defeating nearly every Democratic candidate in the grain belt.

Our Bishops

A growing fear is expressed by the Tidewater District of the Southern Methodist Church in Virginia that the efforts of four Methodist Bishops "to link the Methodist Church with the Republican party and thus to enter directly into partisan politics under ecclesiastical sanction and direction" may bring "divine retribution" to our church organization.

In their pronouncement, giving warning of the dangerous rocks ahead, the gathering dread the action of the Bishops in effect an assault upon the democratic organization of every Southern state, an assault upon the Southern men, who have given us by their votes and influence, both as representatives of citizens, whatever we have to do with the government, the best and most satisfying to our citizenship as a whole.

This statement was issued for the meeting and was signed by former Governor Henry C. Cary, B. T. Wilson, lay leader of the district and scores of the prominent and influential farmers, bankers and business men of the counties comprising the district.

The statement points out that the important Southern leader, Representative or Jurist, supporting Governor Smith, harboring no fear for the loss of the 18th Amendment, rather believing that under the enforcement of the laws will be better enforced than under Secretary Mellon, a former distiller, better enforced because honest.

"If serious injury and loss of honor come to the Church," says the laymen, "because of following unwise leadership, the responsibility cannot be laid at the door of the laymen, who love their church and their party must rest at the door of those who have assumed authority to give the church into the hands of party politics. The church was out in vain eighty years ago by entering the field of politics on a so-called 'issue'."

At 17, 1905, the Bishops of the Episcopal Church in America, known your high calling, and Christ and Him crucified, preach politics, and the commission to preach the Gospel, which is the duty of the church, is being strangled by the mist of worldly compromise and ability.

One of the most forceful of the speech of the late, Governor Alfred E. Smith, is a government

of laws and not of men, laws do not execute themselves. We must have people of character and outstanding ability to serve the nation. To me one of the greatest elements of satisfaction in my nomination is to take place at the municipal stadium and abundant parking space will be provided for automobiles.

Fifteen floats have already been signed for and others will be secured. Merchants will take part and the chamber of commerce is co-operating.

Miss Halliwell, who is to be chosen by a popular vote, with maids, will head the parade. Some of the organizations to be in the parade include the city play grounds, Y. M. C. A., Y. W. C. A., orphanages, high school, local military companies, Red Men, DeMolay, Salvation Army, Boy Scouts, Girl Scouts, Odd Fellows and others.

Stunts will be given at the stadium with prizes for the best stunts, best hand made lanterns, costumes, best floats and others. Following the awards of prizes there will be a float in the field in bright Halloween costumes.

The stadium field will be brightly lighted with large reflector lights and the stadium will be decorated and brilliantly lighted.

Several motion picture comedies will make pictures of the celebration.

DOG LEADS MASTER TO BURIED WEALTH

Poverty-Stricken Man Helped by Pet.

Danville, Ky.—Because his dog led him to treasure trove of 1,800 silver dollars, James Ash, aged and poverty-stricken, who lives near Danville, Ky., believes Providence has been smiling upon him.

He was walking through a field when his dog jumped a rabbit, which led to an old tree stump.

The dog dug furiously about the stump and Ash began removing the soil until he had scoured the rabbit and saw what there was there. It was a treasure trove of 1,800 silver dollars, none bearing a date later than 1864.

It is believed robbers of long ago buried the money about the stump turned for the loot, or that some one else placed his hoard there.

Another theory is that the treasure may have been buried during the Civil War, possibly as a reward for soldiers or guerrillas from taking it.

Seismograph Notes

Quakes of the Heart

Potsdam, Germany.—Lovers' hearts that pound like earthquakes form a familiar poetic simile, and the science is reported to be taking it seriously.

The study of heartbeats by the same instrument used to record earthquakes, the seismograph, has been used to record the heartbeats of lovers.

Physicians now study the action of the heart, Doctor Angewieser and his medical associates point out, by indirect methods, either by sounds or by electric changes.
